HENRYS INVIGORATING CORDIAL.

PURELY Vegetable in its composition.—This invaluable Cordial is extracted from Herbs and Rrits, which have been found after years of ex-perience, by the most skillful physicians, to be possessed of qualities the most beneficial in the diseases for which it is recommended; and hence, whilst it is presented to the public as an efficacious remedy, it is also known to be of that charcious remedy, it is also known to be of that char-acter on which reliance may be placed as to its safety. In cases of Impotency, Hœmorrhages, Disordered Sterility, Menstruation, or Suppression of the Menses, Fluor Albus or Whites, or for Debility arising from any canse, such as weakness from sickness, where the patient has been confined to bed for some time, for females after confinement, abortion or miscarriage, this sordial cannot be excelled in its salutary effects; or in loss of muscular energy, irritability, physical prostration, seminal weakness, palpitation of the heart, indigestion, sluggishness, decay of the procreative functions, nervousness, &c., where a

TOXIC medicine is required, it will be found equal if not superior to any compound ever used.

To Females.—Henry's in igorating Cordial is one of the most invaluable medicines in the many complaints to which females are subject. It assists nature to brace the whole system, check ex cesses, and creates renewed health and happiness. Less suffering, disease, and unhappiness among ladies would exist, were they generally to adopt the use of this cordial. Ladies who are debilitated by those obstructions which females are liable to. are restored by the use of a bottle or two to bloom

Young Men.—That solitary practice, so fatal to the existence of man, and it is the young who are most ant to become its victims, from an ignorance of the danger to which they subject themselves, Nervous Debility, weakness of the system,

and premature decay. Many of you may now be suffering, misled as to the cause or source of dis-ease. To those, then, who by excess have brought on themselves premature impotency, involuntary seminal emissions, weakness and shrivelling or the genital organs, nervous affection, or any other consequences of unrestricted induigence of the sensual passions, occasioning the necessity of renouncing the felicities of

Marriage, lessening both mental and bodily ca pacity, hold! Henry's invigorating Cordial, a medicine that is purely vegetable, will aid nature to restore those important functions to a healthy state, and will preve of service to you. It possesses rare virtues, is a general remover of disease, and

As a Tonic Medicine, it is unsurpassed. We do not place this cordial on a footing with quack medicines, and, as is customary, append a long list of recommendations, certificates, &c., beginning with "Hear what the Preacher says," and such like; it is not necessary, for "Henry's Invigorating Cordial" only needs a trial to prove that it will accomplish all we say. The Genuine "Henry's Invigorating Cor-

dial" is put up in eight oz. pannel bottles, and is easily recognised by the manufacturer's signature on the label of each bottle, (to counterfeit which is forgery.)

NOTICE TO U. S. MAIL CONTRACTORS AND THE PUBLIC.
AUDITOR'S OFFICE, POST OFFICE DEPARTMENT,
November 1, 1853.
TT HAS BEEN LONG THE PRACTICE

of this office to pay the drafts drawn and nego-tiated by contractors for carrying the United States mails, for the amounts, respectively, of their quarterly pay. It was established to accommo-date the contractors, and meet their necessities, in advance of the regular and slewer process of paying by the drafts or warrants of the department,
and was intended only to apply to one draft per
route from each contractor for the whole amount,
(deducting fines, collections, &c.,) of his quarterly
pay; but it has been, and is quite generally so
misunderstood, as to be supposed to allow any
number of drafts, and for any amount, not exceeding in the aggregate, the contract way for the couring in the aggregate, the contract pay for the quarter. A privilege conceded for accommodation (for it was never anything more) has thus been made to embarrass materially the business of this office, forced upon it the settlement of the private accounts of contractors, and thrown upon the ex-changes of the country, with a quasi sanction of this office, a species of paper currency unauthor

ized by the laws.
It not unfrequently occurs, too, that this office is exposed to great and unnecessary risk in deter-mining upon the genuineness of the signatures to the assignments or endorsements of the various

the assignments or endorsements of the various persons through whose hands these drafts are made to pass before their presentation.

It is therefore deemed proper to give this public notice to contractors, and all concerned, that from and after the 1st day of January, 1854, but one draft for the pay upon each route per quarter will be payed, or filed for payment, in this office. This draft should state upon its face, that it is the only one for the quarter and the route (both to be specified) on which it is drawn : and the signature there to should be attested by the postmaster at the place where it may be drawn, and one other witness; and such assignment thereof should be attested by two

PROSPECTUS OF THE

NORTH CAROLINA STATESMAN. THE undersigned propose, on the first day of January next, at Raleigh, North Carolina, to begin the publication of the North Carolina States man, a semi-weekly and weekly paper, devoted to politics, news, and miscellaneous subjects, and respectfully solicit for it a share of the patronage of the democratic party, their friends, and the Invited by many leading persons of the State

rights republican party to propagate and defend principles which we have always held, and regard as the only basis of prosperity in our form of government, and inspired with a sincere desire to serve that party and advance its interests, we pro pose to issue a paper at the seat of the State gov ernment. In the field of editorial enterprise, there is ample room for those who are now holding po is ample room for those who are now holding po-sition, as well as for others, who choose to eater into fair competition. The propagation of the principles of our party is a duty at once import-ant, and to us peculiarly agreeable. The attrac-tions of the editorial profession and its honorable toils, together with a desire to extend its influence, has had much weight in the decision which we have made—a profession at once dignified and elevated, where the highest intellectual gifts may find full employment, and the purest patriotism make contribution to the public weal. We are persuaded that a journal, conducted with fairness and discretion—uninfluenced by selfishness and devoted to principle, may secure sufficient patron age, without interfering with the claims or right

of any now prosecuting the same great work.

Although mainly devoted to the discussion o such political questions, as they arise, which affect the welfare of North Carolina, whether relating to the federal or State governments, or such local in terests as may be of importance, it is nevertheless intended to make the *Statesman* a medium of general intelligence. Accordingly, the state of the markets in the principal cities, to which our commerce goes, shall be fully and accurately reported; nor will the attention of the conductors be less ad-dressed to the subject of internal improvements, as a means indispensable to the development of the mineral and agricultural resources of the State. These interests, of primary importance, shall al-ways command their fullest attention. To this they propose to add carefully selected and original literary matter. Being strictly conservative, they propose to avail themselves of all the lights of ex-

perience, in that progress, which promises the ad vancement of the interests of North Carolina. general objects of the proposed paper being thus clearly indicated, it may not be amiss briefly to state the particular views which are to be sus-tained by it as a political journal.

1st. Our purpose being to publish a paper purely de mocratic, according to the straightest requirements of that party, we shall advocate strict party organization in its fullest and most comprehensive sense an organization which originates in the popular will, expressed by the people in their primary as semblies, and which has been so successfully in troduced among the democracy of many of the ether States, by which the rank and file of the party are, in fact, those who indicate its decisions, being all brought into action, express their will imperatively; thus, by open and fair dealing, commanding respect and obedience; an organiza-tion of the people, and not of intriguers; restoring power to those whe, by sufferance, have tolerate

its temporary usurpation.

2d. The democratic party shall always find in us advocates of their right to select their standard bearers, and to command acquiescence in decisions made by conventions fairly elected in their primar meetings. Standing upon the good eld State rights platform of '58, we shall oppose government corporations created by Congress for the purpose of internal improvement, the regulation of finance or any other measure inconsistent with the right

3d. Believing that the platform adopted by the late Baltimore convention contains the democratic creed, they expect cordially to sustain the present administration, trusting that the policy adopted by those who compose it will be regulated by the cardinal doctrines of the American democracy 4th. They will advocate all such measures of it ternal improvement as promise by judicious prose-cution to promote the interests of the people and diffuse the benefits of a system already enjoyed by

portions of the State.

5th. The disposition of the public lands being a question of the most absorbing interest, we believe it should be at once met and settled. The unjust and unequal legislation of Congress, in relation to those lands, and the large and frequent appropriations made to the new States, indicate a final departure from the old and wise policy of appropriating the proceeds of their sales to the pay-ment of the public debt, and the expenses of the ment of the public debt, and the expenses of the government. It has for some time ceased to be either a subject of hope or expectation that there will ever be a return to a policy which had so much to recommend it. Believing that this system of squandering and prodigality is not only to continue but to grow worse, we shall pretest against it, and assert the right of the old States to their countries. their equitable share of the lands which remain The power "to dispose of the public lands being explicitly declared in the Constitution, the exercise of that power is a question of policy, both as to the time and the mode." Believing, as we do, that it has become the settled policy of Congress to squander the public lands, we adopt the patri-otic language of Mr. Dobbin, and say that "all

of North Carolina's sons, both whigs and demo crats, should protest, and demand North Caro lina's share of the public domain." 6th. Approving of the sentiments of the inaugural of the President, we shall oppose the acquisi tion of Cuba or any other foreign territory, unless such acquisition be in accordance with existing treaties, and entirely consistent with the national

DR. MORSE'S
INVIGORATING CORDIAL,
Phenomenon in Medicine.—Health Restored and Life Lengthened, by Dr. Morse's
Invigorating Elixir or Cordial.

A Tirst the properties attributed to Professor Morse's Invigorating Elixir or Cordial were deemed fabulous. The public often deceived could not believe the simple and sublime truths announced by the discoverer. But facts, undeniable facts, attested by witnesses of the highest class and character, are now triumphing over all doubts. Incredulity is overthrown by a mass of testimony which is perfectly irresistible.

The Elixir remedies in all cases the deplorable evils arising from a misuse of the various organs.

The Elixir remedies in all cases the deplorable evils arising from a misuse of the various organs which make up the wonderful machine called man. It restores to full vigor every delicate function connected with that mysterious compound agency of matter and mind, necessary to the reproduction of human life. To persons of feeble muscular frame, or deficient in vital power, it is recommended as the only means of communicative communication. muscular frame, or deficient in vital power, it is recommended as the only means of communicating that energy which is necessary to the proper enjoyment of all the natural appetites, as well as the higher mental attributes. Its beneficial effects are not confined to either sex or to any age. The feeble girl, the ailing wife, the listless, enervated youth, the over-worn man of business, the victim of nervous depression, the individual suffering from general debility, or from the weakness of a single organ, will all find immediate and permanent relief from the use of this incomparable re vator. To those who have a predisposition vator. To those who have a predisposition to paralysis, it will prove a complete and unfailing safeguard against that terrible malady. There are many, perhaps, who have so trifled with their constitutions, that they think themselves beyond the reach of medicine. Let not even these despair. The Elixir deals with disease as it exists, without reference to causes, and will not only remove the disorder itself, but

Bear in mind that all maladies, wherever they begin, finish with the nervous system, and that the paralyzation of the nerves of motion and sensation is physical death. Bear in mind, also, that, for every kind of nervous disease the Elixir Cordial is the only reliable preparation CURE OF NERVOUS DISEASES.

No language can convey an adequate idea of the immediate and almost miraculous change which it occasions in the diseased, debilitated, and hattered nervous system, whether broken down by excess, weak by nature, or impaired by sick-ness, the unstrung and relaxed organization is at once braced, revivified, and built up. The mental and physical symptoms of nervous disease vanish together under its influence. Nor is the effect temporary; on the contrary, the relief is perma-nent, for the cordial properties of the medicine reach the constitution itself, and restore it to its normal condition. With a new and superb map of the United States, engraved on steel.

The publishers take pleasure in announcing the completion of this, the most elaborate, comprehensive, and perfect Gazetteer of the United States that has ever issued from the press. In its preparation no considerations of expense or labor have been allowed to interfere with a work designed to be as perfect as possible in every department, and in all of its detail. Nor have the successive issues of other Gazetteers, hurried through the press to claim the market, tempted the publishers to offer their book before all the ample census (of 1850) and other material in the hands of the editors were fully digested and accurately arranged.

rately arranged.

When the Gazetteer was first announced 800 pages, or at the most 900, were designed as the limit of the book. But so vast was the amount of matter, accumulated through the personal labors of the editors and their assistants, as well as of the editors and their assistants, as well as through the active efforts of several thousand correspondents in all parts of the United States, the work has swelled to near 1,300 pages. The amount of new matter which it contains, all of a recent character, is very large, and in many instances embracing statistics and populations to 1853. This gives it an intrinsic value over every other work of the kind in evistence. other work of the kind in existence.

We therefore offer our Gazetteer confidently, as the only complete and thoroughly reliable Gazetteer of the United States yet published.

As above stated, the work is now ready, and will be published in December, 1853. Price to subscribers, \$3 50; to non-subscribers, \$4.
